

Adquisición de Estándares de plaguicidas

Se solicita cotización para la adquisición de mezclas de plaguicidas que contengan los ingredientes activos listados en las Listas 1 y 2.

La concentración de las mismas es de 100 mg/L en Acetonitrilo, deben ser suministradas en ampollas de 1 mL de volumen.

Los plaguicidas incluidos en la lista 1 deben formar parte de 1 mezcla o más de una si el proveedor visualiza un problema de estabilidad en base a la experiencia previa.

Los plaguicidas incluidos en la lista 2 pueden estar separados en varias mezclas de forma de aumentar la estabilidad de las mismas.

Cantidad a adquirir: hasta 10 ampollas de cada una de las mezclas de plaguicidas.

Debe indicarse:

1. Tiempo de vencimiento de las mezclas.
2. Tiempo de entrega luego de recibida la orden de compra
3. El proveedor debe estar acreditado en ISO 17034, Requisitos generales para la competencia de los Proveedores de Materiales de Referencia.
4. Certificados de calidad que acompañan las mezclas.

| Lista 1 | |
